

# California Infant/Toddler Learning and Development Program Guidelines

Taking a family-oriented approach, this publication presents research-based guidelines on early care and education that help prepare young children for success in their school years. This resource complements the document *Prekindergarten Learning and Development Guidelines*.

The companion workbook to the *Infant/Toddler Learning and Development Program Guidelines* is designed as a training tool for child care providers and staff. It shows step by step how to implement the guidelines in day care programs, include children with disabilities or special needs, and reach out to families of various ethnicities.

The DVD series includes conversations with experts; rich discussions with infant care teachers, program leaders, family child care providers, and family members about the guidelines activities; and video clip illustrations of practice.
